

APPROVED FOR RELEASE

SUBJECT: Weekly Wednesday Update from the Great Hearts AZ President 4.22.20

Audience: Great Hearts AZ Faculty & Staff, Families

<START>

Dear Families,

There are less than ten days left in April and less than thirty days till summer break officially starts.

Between now and then, we are committed to doing everything we can to make this time away from school as productive and peaceful as possible for your family.

Pulse Check

With that in mind, we'd like to take your pulse again on how we are doing. Please do follow [this link](#) and take a few short minutes to give us feedback. We will continue to share the results as well as make swift and necessary improvements where we can. Your insight is greatly appreciated.

Faculty & Staff Survey

We have also checked in on our colleagues and will continue to do so. Like us parents, our faculty and staff have also acknowledged the difficulties associated with this time. Nothing is quite as it should be.

Still, good things are happening. Most importantly, our faculty and staff across the academies feel supported by their Headmaster. You can see the averages below for the entire Great Hearts AZ network.

Great Hearts AZ

Week of April 13th to April 20th

Supportive Management 91% 5% 4%

Level of Work is Reasonable 76% 6% 18%

We also asked if the work being expected of them during this time was reasonable. We are happy with the early results but do want to continue to work on ways to improve the balance of responsibilities.

If you haven't already done so, I would ask that you consider sending a note of thanks to your teachers. They are doing more than most teachers across our country, and we would all be much worse off without their many virtues.

Sincerely,
Erik
