

FINAL DRAFT
*****APPROVED FOR RELEASE*****

Family COVID-19 Testing Resource

Great Hearts has partnered with Premier Lab Solutions to give our communities access to COVID-19 testing before campus openings. While we cannot guarantee that it will provide a risk-free environment, we are thrilled to provide another layer of protection for our schools through the power of knowledge.

If you are exhibiting symptoms of COVID-19 or believe you may be infected, please do not participate in the testing on campus. Instead, please call Premier at 602-441-2808 to set a time to be tested. When you call, let them know that you are a Great Hearts family and what campus you are a part of. You can either set a time to go to the Premier Lab on 16th Street and Osborn to be tested right away or you can take the next available time for someone to go to your house to administer the test.

Who can get tested?

Any GH employee, student, family member, or anyone residing with them. All persons under the age of 18 must be accompanied by their parent/guardian to be tested.

When and where can I get tested?

Please [click here](#) to find out where and what time testing will take place at your campus.

Pre-Registration for COVID-19 Testing

To participate in the testing, we highly recommend that you pre-register to cut down on your wait time the day-of the testing. Please keep in mind that, even though you pre-register before going to your campus to be tested, you must still go to the registration table to check in. The form will need to be completed for each person within your household that will be getting tested.

For Premier to staff their locations properly and minimize your wait times, we are asking you to complete the pre-registration process by 9:00pm on Friday, August 21. You can pre-register on a computer, laptop, or a mobile device. To do this, please follow the instructions below:

1. Please [click here](#) to access the pre-registration form.
2. Fill out the questions as the system prompts you.

The form that you are filling out is HIPPA compliant. Therefore, any information that you fill in is private and will not be shared with Great Hearts or any other third party.

After filling out the form, you will receive an email to the address you pre-registered with prompting you to log into your portal. You will have 24 hours to complete this step before your link expires. If you do not complete this step, you will be unable to access your test results and will need to reach out to Premier Lab Solutions to log into your portal. You will receive your results via your portal within 72 hours of taking the test.

Insurance Coverage

Great Hearts employees' testing fee is 100% covered.

Great Hearts families and students may use commercial insurance benefits or invoke [the CARES Act](#) to pay for testing fees. Please note that the CARES Act requires additional screening information ON-SITE including social security # and photo ID.

Additionally, if you have insurance but do not want to go through your carrier, you can pay directly for this service.

What to Bring with You to Get Tested

When you go to your campus for testing, please remember to bring your driver's license and your insurance card. If you are a Great Hearts employee, you must present your badge. If you are a new employee and have not received your badge yet, please let the registration table know when you arrive.

Day-Of COVID-19 Testing Logistics

For your safety, upon entry to the location of testing, your temperature will be taken. All persons must wear a mask while inside the building, and 6-foot physical distancing is required.

There will be two lines when checking in – one line for those that pre-registered and one line for those that did not pre-register. After checking in, you will be directed to the COVID-19 tester and you will receive an email with instructions to log into your patient portal. You will have 24 hours to complete this step before your link expires. If you do not complete this step, you will be unable to access your test results and will need to reach out to Premier Lab Solutions to log into your portal. You will receive your results via your portal within 72 hours of taking the test.

If you do not receive an email immediately after taking your test, please go back to the check-in table or call 602-441-2808 or email greathearts@premierlabsolutions.com.

The test administered will be the PCR anterior nares test, which is non-invasive and quick. This is not the test that “pokes your brain”. It goes slightly beyond the bridge of your nose on both sides and takes seconds. If you are nervous, scared, or have questions, please do not be afraid to talk to your tester. They are happy to answer your questions and help put you at ease as much as possible. They are not simply there to take administer the test. Premier Lab Solutions believes in educating and providing understanding around COVID-19 testing, which is another reason that we decided to partner with them.

If you have any questions about the process, pre-registering, or the test itself you can contact Premier Lab solutions via phone at 602-441-2808 or via email at greathearts@premierlabsolutions.com.
